DETAILED ACTION

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 1-15 and 25-30, drawn to an invention which was non-elected without traverse.

Accordingly, claims 1-15 and 25-30 have been cancelled.

Allowable Subject Matter

2. Claims 16-24 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the presently claimed method which combines an automatic triggering signal to initiate image capture responsive to a chemical dispensing step, with automatic alignment of a subset of sequentially captured images in a manner to compensate for sample motion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
